

2015 CSA Share

[Klasse Woods Natural Farm](#) has taken *CSA to the next level. From our garden:*

~ “*You choose what you use!*” ~

The price of the garden share is \$25.00 per week for a total of 13 weeks. You are welcome to purchase more than \$25.00 each week, but we are asking only that you commit ahead of time to purchase \$25.00 of fresh veggies each week.

\$25.00 x 13 weeks = \$325

Through this you are supporting the gardening input and operations – you’re helping your farmer... and “reaping” the benefit of fresh, clean, local, chemical-free vegetables ready to serve to your family.

We will send notification by email each week to remind you that we will be coming with your vegetables ... and anything else you may wish to purchase each week.

Grass-fed Beef & Eggs will be available at the market stand throughout the season while supplies last, for your convenience.

If you plan **to purchase fresh farm eggs**, please **send us an email** indicating your desire to do so. We will bring the eggs for you and you can pay us for them weekly, when you come to pick up your garden vegetables – no need to pre-pay for the eggs – we just ask that you pre-order by email request (to make this easy - only ONE email one time stating you would like 2 dz each week is sufficient – or however many dozen you would like per week...and that can vary as necessary each week).

Bulk meat purchases, please send us an email with your order as soon as possible. Secure your order of beef quarters & halves, as well as for the pastured chickens and turkeys. Place your orders for the meats asap, these sell out quickly each season.

Planned dates for meats:

- Chickens – end of July 2015
- Turkeys – end of August or beginning of September
- Grass-fed beef – ¼’s & ½’s – end of November/December

Note: We plan to have Grass-fed beef cuts, ground, soup bones & organ meats available **while supplies last**, throughout the garden harvest season as well this year (transported in a portable freezer).

We hope that you will enjoy this season of healthy food.
